PROFILE

Mathematics and Statistics student at McMaster University building practical skills in R, SQL, and Excel, seeking a co-op position in data analysis. Adapts quickly to new tools, manages responsibilities independently, and brings strong analytical thinking and attention to detail to a data-driven team.

EDUCATION

Honours Bachelor of Science, Mathematics and Statistics

September 2024 – Present

McMaster University, Hamilton, Ontario

- Minor in Environmental Science
- Dean's Honour List, 2024–2025 and 2025–2026, for academic achievement

SKILLS AND CERTIFICATIONS

- Technical Tools: R, SQL, MATLAB, Excel
- Software: Microsoft Word, PowerPoint, Google Workspace
- Visualization: Canva
- Quantitative Foundations: Dynamical Systems, Number Theory, Statistical Probability
- Languages: Fluent in English and Tamil

Projects

Stock Market Analysis

Independent Project (R)

- Analyzed price, return, and risk metrics for 6 major stocks (AAPL, MSFT, NVDA, AMZN, TSLA, JPM) from 2015–present using R
- Calculated daily and monthly returns, moving averages, volatility, and Sharpe ratios to evaluate risk-adjusted performance
- Built and published 5 ggplot2 visualizations covering price trends, return distributions, and volatility
- Structured the project with reproducible scripts and documentation, published to GitHub

Canadian Sales Dashboard

Independent Project (Power BI)

- Built a multi-page Power BI dashboard analyzing sales performance by region and product category
- Used Power Query to clean and transform raw sales data before modeling
- Created key business measures with DAX (CALCULATE, time intelligence) to support trend and comparison analysis

WORK EXPERIENCE

Math Instructor

July 2026 – August 2026

Best Brains, Pickering, Ontario (Summer role)

- Taught mathematics to elementary and middle school students, delivering clear, step-by-step instruction on core concepts
- Monitored individual student progress and delivered targeted feedback to strengthen problem-solving and critical-thinking skills
- Collaborated with fellow instructors to maintain an organized, positive classroom environment across multiple concurrent student groups
